By ankitdce · 5/11/2023, 1:00:08 AM

Aptible (YC S14) Is Hiring: Security Engineer and Head of Product

By fancyremarker · 5/10/2023, 5:02:06 AM

Load more jobs

Requirements

- The page should show 6 jobs on initial load with a button to load more postings.

- Clicking on the "Load more" button will load the next page of 6 postings. The button does not appear if there aren't any more postings to load.
- If there's a url field returned for the job details, make the job title a link that opens the job details page in a new window when clicked.
- The timestamp can be formatted in any way you like.

API

Hacker News has a public API to fetch jobs by Y Combinator companies:

Job Stories

Fetches a list of job posting IDs.

- URL: <https://hacker-news.firebaseio.com/v0/jobstories.json>
- HTTP Method: GET
- Content Type: json

Sample response:

[35908337, 35904973, 35900922, 35893439, 35890114, 35880345, ...]

Job Details

Fetches job posting details given its ID.

- URL: <https://hacker-news.firebaseio.com/v0/item/{id}.json>
- HTTP Method: GET
- Content Type: json

Sample response for <https://hacker-news.firebaseio.com/v0/item/35908337.json>:

```
{
  "by": "jamilbk",
  "id": 35908337,
  "score": 1,
  "time": 1683838872,
  "title": "Firezone (YC W22) is hiring Elixir and Rust engineers",
  "type": "job",
  "url": "https://www.ycombinator.com/companies/firezone/jobs"
}
```
